

The International Journal of  
**APPLIED  
 ENGINEERING  
 EDUCATION**

**Editor-in-Chief: Michael Wald**  
*Hamburg Educational Partnership*  
*Germany*

**Contents**

M. S. Wald	251	Editorial
G. W. Brodland and G. Welstead	252-257	Students Consolidate Learning by Designing Course Modules
S. K. Vajpayee and A. Jain	258-263	Teaching Manufacturing as Law/Medicine
A. El-Hajj, W. Harmoush, K. Y. Kabalan and H. Mudallal	264-274	A Nonlinear Programming Computer Tool
A. Zingoni and M. N. Pavlović	275-288	Kinematic Considerations in the Classical Analysis of Shells of Revolution by Reference to the Geckeler Approximation
D. S. Jayas, G. E. Laliberte and K. Alagusundaram	289-293	A Finite Element Program for Teaching Transient Axisymmetric Field Problems
N. T. Younis and J. N. Libii	294-302	Mode I Stress Intensity Factor by the Method of Caustics
T. Stathopoulos	303-306	Interactive Software for Tutorials in Statics
H. Diab, H. Tabbara, F. Moukalled, I. Kaysi and L. Raad	307-315	GEOCAD: An Educational Tool for Flexible Pavement Design and Maintenance
M. N. O. Sadiku	316-320	A Monte Carlo Method Without Employing Random Numbers
S. E. Jones, T. L. Caipen and G. J. Butson	321-327	Coplanar Projectile Motion Including the Effects of Constant Thrust and Drag
R. J. Havlik	328-330	Aerospace Education and Technical Literature
