

The International Journal of

ENGINEERING EDUCATION

Editor-in-Chief: Michael Wald
Hamburg Educational Partnership
Germany

Contents

M. S. Wald	387	Editorial
	389-393	Engineering Education World
G. Vasilca	394-400	Personal View: Engineers for a New Age: How Should We Train Them?
<i>engineering education research</i>		
J. Faulk and A. A. Sutko	401-404	A Study of Accredited Manufacturing Engineering Technology Programs
<i>organization of studies</i>		
Hellen C. Hollein and C. Stewart Slater	405-415	Experiences with Undergraduate Research in Senior Project Courses
R. L. Wood, L. E. Davis, S. T. Newman and K. R. Holmes	416-426	Experiences Gained in the Teaching of Computing Technology to Engineering Students
<i>mechanical and manufacturing engineering</i>		
R. I. Noorani and R. S. Stits	427-433	A Low-Cost Robot Vision System to Simulate a Manufacturing Environment
<i>Electrical and electronic engineering</i>		
Chin C. Lee and David H. Chen	434-449	Electrostatics and Thermostatics: A Connection Between Electrical and Mechanical Engineering
Kim I. Mallalieu, Ronald D. Arieatas, and Derrick So'Brien	450-458	Centronics Port Drivers for Computer-Aided Laboratory Experiments
<i>aerospace engineering</i>		
Jeanine M. Hunter and David E. Horton	459-465	Design and Construction of a VHF Ground Station at San Jose State University
